

RootsTM EasyAir X2

Factory blower package system

Howden Roots EasyAir X2.

Reduce noise and maintenance costs while delivering reliable performance.

Howden is a truly global company, with an established presence in more than 27 countries across every continent. Our network of local support services enables us to respond urgently to customer queries and maintenance requirements, and we understand the importance of local circumstances, from environmental legislation to energy costs.

Every product we deliver is backed by an unequivocal lifetime commitment to spare parts and product support. Replacement parts are made using the original production drawings, so that compatibility and quality are guaranteed. We also offer a full upgrade and enhancement program that allows customers to take advantage of new developments, or adapt existing equipment to changed conditions.

Overview

Basic Blower Package Description

The Roots EasyAir X2 system provides the best of performance engineering in a standard package. It can be confi gured to meet unique requirements and is suitable for pressure or vacuum applica-tions.

The Roots EasyAir X2 system is a cost-effective factory designed blower package available for your:

- Wastewater & water treatment needs
- Pneumatic conveying & bulk handling needs
- Process air needs

Package Standard Equipment

- Bi- or tri-lobe splash lubricated blower
- Drive motor is high efficiency, TEFC enclosure with 1.15 service factor
 - Or provide us with your specified motor requirements and let Howden provide the solution
- Self-tensioning V-belt drive
- Inlet fi Iter/silencer with polyester element
- Discharge silencer (non-packed; multi-chamber)
- Non-electric enclosure vent fan
- Vibration isolation pads
- Panel-mounted fi Iter restriction gauge, system pressure/ vacuum gauge, discharge temperature gauge
- Acoustic enclosure with robust painting system
- Discharge flexible connector
- Check valve
- Pressure relief valve
- Oil drain manifold with sight gauge

Package Design Features

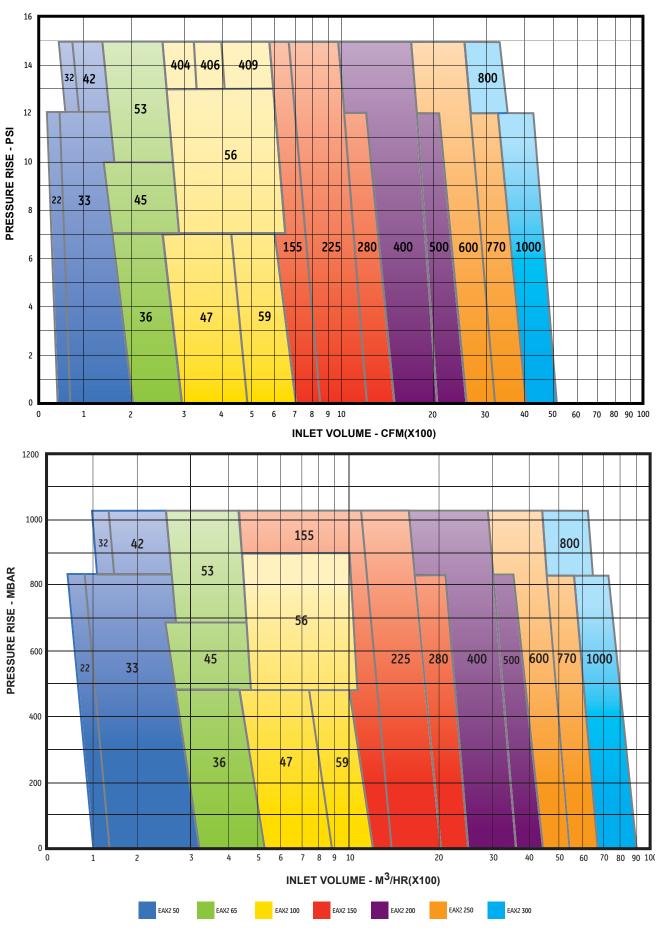

- Easy to install, with small footprint
- Electrical access through the fl oor or rear panel gives you added fl exibility
- Automatic belt-tensioning system is counterbalanced, optimizing the life of the V-belts
- No special jacks are required to lift the motor when replacing belts (saving time and effort)
- Side-by-side installation allows for more effi -cient use of your available space
- Keyed locking panels allow easy fi Iter maintenance and safe access to equipment
- Air flow from front to rear is designed for personnel safety and equipment reliability
- Access to air fi Iter is convenient and designed to reduce pressure losses, improving reliability and blower effi ciency and protecting your invest-ment
- Blower shaft-mounted fan provides exceptional cooling, reducing enclosure temperature dramatically and extending the life of critical components
- Gauges are provided to monitor blower health as standard equipment and positioned ergonomically for your personnel's safety
- Acoustic enclosure is designed to provide up to 22 dBA free fi eld attenuation, helping you to meet the specifi ed noise requirements of the jobsite
- Broad operating performance range provides you with a multitude of efficient and compact solutions so your requirements are satisfied

Vacuum Relief Valve Connection for Vacuum
Applications. Not Available on Pressure Applications.

Inlet Filter Silencer

Optional Control
Switches
(Temperature, Pressure, Vacuum)

Outside Air Connection
Optional, Regd for Vacuum
Applications

Pressure Relief
Valve Plugged for
Vacuum Application

Optional Oil Pan

Discharge Silencer

Optional Oil Pan

Discharge Silencer

Servicing and maintenance

Howden owns and operates strategically located blower maintenance and repair facilities in the following areas: Connersville, Indiana, Houston, Texas, Skelmersdale, United Kingdom, Shanghai, China.

Howden has additional authorized service capability via an extensive network of distributors and agents.

Each facility is well equipped and staffed with factory trained service personnel to meet your unique needs. These facilities regularly service competitor units and keep critical parts on hand for expedited delivery. Howden warrants all authorized maintenance and repair work with one year coverage on all parts and workman-ship. Certified ISO-9001.

Warranty

Applicable series or model	Designation or gear diameter	Warranty period- months from date of original unit start-up/ months from date of original shipment, whichever occurs first					
Bare shaft unit							
URAI* & URAI-J* including DSL	2 ½ - 7 inch	24/30					
RAM* & RAM-J*	4 ½ - 6 inch	24/30					
RAM-X*	155, 225, 280, 400 & 500	24/30					
RAM-X*	600, 770, 800 & 1000	12/18					
Standard factory package (note that bare shaft blowers are covered separately above. Explicitly not included in standard factory package warranty are drive belts, filter elements, hoses and fittings, gauges and switches.)							
EasyAir* X2	50, 65, 100, 150 & 200	18/24					
EasyAir* X2	250 & 300	12/18					

Aftermarket services

All Howden equipment comes with an absolute commitment to aftermarket support that includes spare parts, servicing and maintenance, advice and on-site training. We can also offer detailed upgrade and enhancement planning to bring the benefits and efficiencies of new technologies into existing installations with the least disruption. While we prefer to build long-term service partnerships based on scheduled maintenance designed to prevent problems arising, we are ready to respond to any request quickly. As a global organisation, we pride ourselves on our ability to deliver a rapid local service anywhere in the world.
